Noticeably Fuller Lips with Purple Lab, Glominerals, and Dr Kenneth Skin Care

Lip plumpers are popular among celebrity clientele but today I'm going to tell you about an affordable way to get noticeably fuller lips for a fraction of what celebrities pay on procedures!

These lip plumpers from **Purple Lab**, **Glominerals** and **Dr. Kenneth Mark Skin Care** will give you results without breaking the bank.

New from [Purple Lab](#) is the **Huge Lips, Skinning Hips** collection (pictured above). This collection features six chic-hued glosses that gives your lips that extra *umph* with vintaim B3. Price: **\$20**.

Glominerals just came out with new shades of their [GloLip Pumpers](#) in a Very Cherry and a Perfect Plum. Marine collagen spheres gives lips huge volume that you can "sea" while lip stimulating capsicum extra and safflower oil soften and condition. Price: **\$16**.

Dr. Kenneth Mark Skin Care is great for the lady wanting ageless and fuller lips. The [Lip Plumper with Lipoic Acid](#) fills in fine lines and wrinkles around the lips while adding fullness with collagen-inducing palmitoyl-oligopeptide. Price: **\$62**.
